

What?

Seniors from all the places where the "Tango for Seniors" project is located are invited to participate.

From March 2023, they started to prepare choreographies and shows for the "Tangueros* Seniors Olympiads", on the theme of the "Cumparsita", the international anthem of Tango. The workshops take place once or twice a week, over one year.

**A Tanguero is a person who dances Tango*

With whom?

Legacy and transmission.

Designed for happy seniors, the project is supervised by Music and Dance teachers, as well as Teachers in Adapted Physical Activities (EAPA).

Where?

The meeting is organized in Dijon, by the Sports Department (UFR STAPS), within the framework of the Olympic Village of the University of Burgundy, certified «Génération 2024», at the Salle Multiplex, in face-to-face for those able to come, online or in interactivity for others.

Who?

Members of the consortium

Co-funded by
the European Union

Sponsor of the event

Clément Leroy, 6X world champion in static balance on a bike and world record holder for endurance in static balance on a bike: 24 hours.

Behind his appearance as a static champion, he demonstrates that he maintains balance through movement, like the seniors when they dance.

Clément is also a cognitive psychologist. He is interested in the keys to motivation. The duo he forms with his bike will allow him to accompany the seniors between static and cognitive balance!
